

Ferran Perez Garcia

Girona, España · ferranperezgarcia.github.io · +34 619 51 81 01 · ferranperezcontact@gmail.com

Software Engineer with experience in cross-platform development (web, desktop, and mobile). Specialized in SQL/PostgreSQL, C#, C++, Python, Angular, and JavaScript, with knowledge in 3D and game engines such as Unity and Unreal Engine. Passionate about creating innovative solutions, adaptable to different industries and technologies.

PROFESSIONAL EXPERIENCE

Eurofitness

Lifeguard, Swimming Instructor, and Aquagym Technician

Salt, España

July 2023 – Present

- Supervision of indoor and outdoor pools, swimming lessons, and leading Aquagym sessions.

PROJECTS

Terra Sketch

Full Stack Developer: Angular, Three.js, PostgreSQL

Girona, España

August 2025

- Development of a web application in Angular for generating 3D terrains from grayscale heightmaps.
- Integration of an interactive 2D canvas system to paint heightmaps and visualize them in real time using a subdivided plane in Three.js.
- User management and project storage in PostgreSQL, allowing saving and retrieving editable terrains.

McNetik Run

Unity Programmer

Girona, España

November 2024 – Present

- Developed 100% of the core gameplay mechanics for a 3-lane endless runner in Unity, including movement logic, obstacles, procedural generation, and scoring system.
- Optimized overall game performance, ensuring a smooth experience even on mid- to low-end devices.
- Implemented Firebase Firestore for cloud-based authentication and data saving/loading.

Publisher

- Managed continuous release and updates on Google Play Store using the Google Play Console.

3D Artist

- Modeled and textured 100% of the game environment using Blender and Substance Painter.
- Created custom rigs and animated all characters and environmental elements.

Echoes Of Extinction

Unity Programmer

Girona, España

October 2023 – December 2023

- Implemented a complete AI system using NavMesh, state machines, and synchronized animations.
- Designed a scalable architecture with base classes and inheritance to easily extend enemy behavior.
- Optimized 3D models in Blender, reducing polygon count and improving overall performance.

EDUCATION

UNIVERSITAT de GIRONA

Bachelor's Degree in Video Game Design and Development

Girona, España

2019 – Present

INSTITUT RAFAEL CAMPALANS

Higher National Diploma in Cross-Platform Application Development

Anglès, España

2019-2021

INSTITUT SALVADOR ESPRIU

Intermediate Vocational Training in Microcomputer Systems and Networks

Salt, España

2017-2019

ADDITIONAL SKILLS

- **Languages:** Native in Spanish and Catalan. Fluent in English.
- **Programming Languages:** C#, C++, C, Python, Java, JavaScript, SQL
- **Soft Skills:** Teamwork, effective communication, autonomy, organization, adaptability, critical thinking
